- Technician/sales at Regazzi SA (CH)
January 7, 2024 - Present

COVER LETTER

Dear Sir or Madam,

I am writing to express my interest in joining your team.

I am currently looking for a new professional opportunity in the Basel area and I am particularly attracted to environments where customer experience, attention to detail and product presentation play a central role.

My educational background is rooted in design and architecture. I graduated in Industrial Design and later attended the Bachelor's Degree in Interior Architecture at SUPSI. These experiences allowed me to develop a strong aesthetic sensibility, creativity and an understanding of how people interact with spaces, products and visual environments.

During my professional career as a CAD Designer and Technical/Sales Consultant, I have worked daily with customers, architects, suppliers and installation teams. This experience strengthened my communication skills, my ability to understand customer needs and my commitment to providing accurate and personalized solutions.

Some of the skills I have developed throughout my career include:

- Customer assistance and relationship management
- Understanding client needs and proposing suitable solutions
- Strong attention to detail and product quality
- Visual and aesthetic sensitivity developed through design studies
- Project organization and planning
- Teamwork and collaboration with different professionals
- Problem-solving and adaptability
- Material and product knowledge
- Digital skills including AutoCAD, Archicad, Photoshop, Illustrator and InDesign
- Photography and visual presentation skills

Working in the design and solar shading sector has also taught me the importance of presentation, customer trust and creating a positive purchasing experience, values that I believe are equally important in the retail and fashion industry.

I am enthusiastic about learning new skills and entering a field where I can combine my passion for design, aesthetics and customer interaction. I am confident that my background, reliability and motivation would allow me to become a valuable member of your team. Thank you for your time and consideration. I look forward to the opportunity to discuss my application further.

**Yours sincerely,
Christian Guffanti**
